

ZM30-P V-groove PCB Guillotine Separator

- a. Voltage: 90~240VAC
- b. Air Pressure: 0.6MP
- c. Weight: 195kg
- d. Can cut PCB thickness: 0.3mm-3.5mm (with V-groove) 0.1mm~1.0mm(without V-groove)
- e. Max. cutting size: 350mm
- f. Cutting strength: 7300kg
- g. Component distance: distance from componenets to cutting point \geq 0.2mm
- h. Application: Any SMD PCB pane lwith V-groove , including LED aluminum and copper PCB panel
- i. Cylinder pulling method, cutting, counting, automatic start and stop functions, safe and reliable
- j. Cutting strain \leq 400 microstrain
- k. Size: 790mm*340mm*450mm
