Machine Introduction

Adopts 32-bit intelligent control system, LCD display can be switched into Chinese and English. It can store hundreds of information and call it at any time, it's labor saving time improving and increases production efficiency. Mainly used for electronic cable, silicone cable, teflon cable, fiberglass cable, insulation cable, sheath cable, etc. Fully automatic cutting, stripping, half-stripping, medium-stripping and twisting functions are achieved in one time, and it can change the wire size quickly. This machine is mainly used in electronics, electrical appliances, toys, automobile and motorcycle parts and other industries.

Model: EIBC-230

Cable diameter: $\leq 16\text{sqmm}$

Capacity: 1

Cutting length: 0.1-9999.9mm

Front end stripping: 0-250mm

Backend stripping: 0-80mm Productivity 2000-3000pcs/h

Cutting accuracy: $0.002 \times L$

Middle stripping: 15times
