

TAIWANG brand Machine Description

Item	TW - 15T-C VERTICAL INJECTION MACHINE
Picture:	
Features:	<ol style="list-style-type: none"> 1. Vertical injection vertical clamping design, professional for insert injection moulding processing 2. Adopt brand microcomputer to control machine pressure, system pressure can be digitally adjusted, make machine running smooth running. 3. Multi-stage temperature control for improved product quality stability 4. Equipped with fast clamping mode, low-pressure slow-speed closing mode, automatic mould opening safety design for mold clamping abnormality, protection for molds and machines 5. Equipped with ejector device to facilitate the removal of finished products and save production time 6. Optional for hand-held molds and fixed mold configurations
Application:	<p>Suitable for inert injection moulding, specially for DC cable wire plug and connector, such as usb cable, earphone, audio cable etc electronic products</p>

TAIWANG brand Machine are come with the below spare parts

Item	Quantity	Item	Quantity
Mounting pad	1set	Full set heater band	1set
Mold clamping bolt	1set	Tool Box	1pcs
Galvanized flat mat	1set	Wrench	2 pcs
Screwdriver	2pcs	Hex screw	2pcs
Nozzle wrench	1set
