

INSERSORA PTH RADIAL HS-K6 IN LINE (ESQUERDA DIREITA) C/ 20 DISPENSING HEAD - DUPLO SPAN (2,5 e 5,0mm) - SERVO MOTOR DELTA

- Lead Span Type: 2.5,5.0,7.5,10.0mm
- Component Stations: 40 pcs - Board Size: Min 50mm*50mm,Max 508 mm*381mm - Theoretical speed: approx 32000cph;
- Quick plugin: 0.15 seconds/point - Direction: right to left/left to right (optional)
- Power supply: rated voltage: 3-phase 380V±20V
- Frequency: 50/60Hz
- Rated capacity: about 4.0kVA full load
- Air source: supply pressure: Min 0.45Mpa-Max 0.8Mpa

(Operating pressure 0.45Mpa-0.5mpa)

- Air supply: approx. 90L/min (A.N.R)
- Device size: about L2200mm*W1800mm*H1700mm

- Weight: Host Weight: about 2200kg(host only) - Insertion direction: 360° direction (unit: 1°) - Interpolation mode: automatic or manual - Identification mode: Automatic identification - Bending Angle: N 35° Angle - Touch screen English/ Chinese interface, convenient and easy to operate
