

Loader LY-250G-U

Model	Specification	
	Board Size	W50*L50(MIN)-----W250*L330(MAX)
	Transmission Height	900±30mm
	Step Selection	10,20,30,40mm
	Rack Size	320*350*565mm
	Power	220V,50HZ
	Machine Dimension	L1100*W780*H1200mm ±30mm (with alarming light)
Description		
Controlled by PLC and Panel, ensuring a stable and reliable work		
Strong commonality, allowing to use a standard magazine rack		
Lift up-down mechanism according to the thickness of PCB		
Armed with the SMEMA interface which can connect with other machines online.		
Specialized aluminium guide rail and plastic roller chain.		
Taiwan-made 90w step motor driver adopts the ball screw to control the rise and down of magazines.		
Automatic magazine change-over.		
Pneumatic clamping structure.		
Mistubishi PLC programmable.
