RS-901AW Capacitor / LED Lead Cutting Bending Machine With Polarity Detect

Model: RS-901AW

Voltage :220V/110V   50/60HZ

Air Pressure ：4-6KG/CM2

Efficiency ：8000-12000pcs/Hour

Suitable for ：LED, electrolytic capacitor, capacitor, triode,etc

✓ For various types radial components, especailly components needs to detect polarity, such as LED, E-caps,etc.

✓ Can detect polarity.

✓ Cut lead to different length, bend lead to 90 degrees, K shape,etc

✓ Can customize feeder bowl, jigs, forming tool according to components
