RS-909 LED Lead Pre-Forming Machine With Polarity Detection

Voltage : 220V/110V AC60HZ/50HZ (or specify)

Application : LED lead Cutting and Forming. Detect Polarity. Cut leads to different length, kinking, widening, 90 degrees bending, 180 degrees bending, etc.

Effectivity : 3300 to 3600 pcs per hour

Remark : one machine only use for 1 size LED

Package: Wooden box, 95x68x95CM 190KG
